The Association of Israeli Friends of the Israel Museum is dedicated to developing and cultivating relations between the Museum and its community of friends and supporters in Israel. The Association strives to bring its members closer to the broad and diverse activities of the Museum and, in turn, its members promote the Museum and its programs among a wider audience.

The Israel Museum is the largest cultural institution and only encyclopedic museum in Israel and one of the leading museums in the world. Its holdings include the world's most comprehensive collections of archaeology of the Holy Land and Jewish Art and Life, as well as significant and extensive holdings in the Fine Arts, ranging from Old Masters to Contemporary Art. Its dynamic Department of Israeli Art houses major works by veteran artists, along with works by young contemporary artists. The Museum is also home to the Shrine of the Book housing the renowned Dead Sea Scrolls, a five-acre Art Garden, and a large and active Youth Wing for Art Education.
